FRANKLIN JURY GIVES VERDICT IN FAVOR OF EYLER

John W. Eyler, Gettysburg R. 1, who sued Raymond Bricker, Chambersburg R. 4, for possession of a pure-bred Angus bull in a replevin action tried in common pleas court in Chambersburg starting Monday, was in possession of the bull today.

A jury, reduced to 11 members by the sudden illness of one of the foremen, returned a verdict in favor of Eyler Wednesday afternoon. The jury fixed the value of the bull at \$240. Eyler took the bull instead of the money. He went to Bricker's home early this morning and brought the Angus back to his Adams county farm by truck.

The case started Monday morning. It was given to jury at 11:12 a.m. Wednesday, and a verdict reported at 2:25 o'clock Wednesday afternoon.

**Finished With 11 Jurors**

The case was continued with 11 jurors by stipulation of the attorneys involved, after Charles E. Owen, 73, suffered a heart attack at his home Tuesday night. He was removed to the Chambersburg hospital where his condition was reported serious.

In bringing the replevin action, Eyler alleged that he had purchased the bull from Lawrence Fidler, Gettysburg R. D., at auction November 24, 1949. Four days later, according to Eyler, the bull escaped from an enclosure at his farm. On December 10, he testified, he located the animal at Bricker's farm.

Bricker declared that he bought the bull at the Greencastle Livestock market November 28, the day it allegedly disappeared from the Eyler farm. He denied, during the trial, that the bull in question was ever in Eyler's ownership. He said he had purchased it at the Greencastle sale November 28 from Harry E. Carbaugh, Gettysburg R. 1, a neighbor of Eyler's.

**Earlier Trial Here**

Carbaugh said the bull was bought at Greencastle August 1 and had been in his possession continuously until he sold it to Bricker.

Carbaugh earlier this year was acquitted by an Adams county jury of fraudulently selling Eyler's bull.

In the Chambersburg trial, before Judge Edmund C. Winger, Eyler was represented by Attorney Daniel W. Long, and Bricker by Attorneys George S. Black and Eugene R. Hartman, the latter of Gettysburg.

Says N. Koreans Can't Win War

Tokyo, Aug. 17 (AP)—A veteran Red lieutenant who deserted and surrendered to the Americans says the North Koreans can't win.

Intelligent officers at General MacArthur's headquarters said today the North Korean was assistant company commander and political officer of his unit in the elite North Korean Sixth Division. It was battered by U.S. Marines and army infantry around Chinju.

The Red estimated his division's 13th and 15th Regiments suffered 50 per cent casualties and the 14th Regiment's losses were 80 per cent.

The lieutenant, a China Communist war veteran, added that the division lost 15 of its original 16 self-propelled artillery pieces. All four tanks spearheading its operation were destroyed.

A headquarters spokesman said the captured officer was "one of these we had been led by past experience to believe would kill themselves rather than surrender. Others have done so when facing capture."

"OPEN HOUSE" IS SESQUI FEATURE BY HISTORIANS

The Adams County Historical society has announced a special "open house" in its enlarged quarters in the east end of the court house basement on Sunday afternoon, September 3, as a special feature of the Sesqui celebration.

The event will give the public an opportunity to see the improvements recently completed by the Adams county commissioners and to inspect many articles of historical interest to this county which will be arranged in a special display.

The library and museum committee of the society will be in charge of the public reception while officers of the society will be on hand to receive the visitors.

In addition to the exhibit of historical objects that have been crowding the society's former quarters and have been added to during the Sesqui year, the society will have on display a collection of paintings by Walter D. Trout, York art instructor. The paintings are of historical spots in York and Adams counties. Mr. Trout's display will open August 30 with the Sesqui celebration. He will be a special guest of the society during the Sunday "open house."

The county commissioners and their clerk and officers and members of the Historical society of York county are being invited also as special guests for the "open house" from 3 to 5 p.m. on September 3.

Knouse Foods Sells All '50 Tomato Juice

All of the expected 1950 pack of tomato juice by the Knouse Foods corporation has already been sold, Ralph E. Arnold, sales manager of the Peach Glen cooperative, said today.

"Our 1950 processing has not been completed, but sales have been so heavy that all the anticipated pack has been sold, despite the fact that we plan an increase of 100 per cent over the amount of tomato juice we produced last year," Arnold said.

He added that if the expected pack proves larger than the present estimate, the company may go back on the market with a limited quantity of juice, "but as of now it looks like every can we will be able to produce has already been sold," Arnold said.

He added that the juice was offered for sale to jobbers less than a week ago. National advertising and the quality of last year's pack were said by Arnold to be responsible for the quick sale.

Joyce Yingling, a member of the Barlow "Fun to Cook" 4-H club, was awarded a red merit award at the annual 4-H club week competition at Pennsylvania State college. The Adams county 4-H team won eighth place in the general livestock judging contest held as part of the 4-H week activities.

EARLY CHURCH SCENE FEATURES SESQUI PAGEANT

Few states in the union began with as many religious denominations and as much religious tolerance as Pennsylvania, and the story of the first churches founded in what is now Adams county will constitute another of the many features of historical interest in the Sesqui-centennial pageant to be presented at the Gettysburg college stadium the evenings of August 30 and 31 and September 1 and 2.

Very shortly after the arrival of the early settlers in Adams county, these pioneers began thinking of their spiritual welfare. The settlement of this wilderness was a religious crusade for many. Numbers of these pioneer settlers had followed frontier trails to this section to escape religious persecution in "the old country." The settlements in "Penn's Woods" formed asylum for many.

In this particular section, a "mass house" had been erected by 1734 and a log church built in 1740 at Cone-wago, where the present church, the first part of which was built in 1787, stands. The Jesuit missionaries traveled from Conewago to the settlements throughout the area.

Presbyterian churches, two of which were in existence in the early days of the settlements, were located at Upper Marsh Creek (now the Gettysburg church) and at Hunters-town, the latter called the Great Conewago church.

The historical spectacle, "Frontiers of the Past," looks upon these early foundations of the Christian church here in retrospect, and presents it not as a representation of any sect, but of all early religious faiths in Adams county.

A group from New Oxford will portray this episode. It includes: Regina Mummert, Travis Harner, Pat Smith, Joseph E. Kaiser, Barbara Croft, Shirley L. Smith, Juene Wolf, Robert Crouse, Donald Wentz, Pauline Tropp, Gene Yealy, Charles Grist, William Staub, Robert Noel, Roy Myers, Shirley Crouse, Russell Shriver and Mary Ann Bevenour.

New Oxford Youth Enlists In Army

Patrick J. Barrett, 19, New Oxford R. 1, has enlisted in the U.S. Army for two years, S-Sgt. Dick Taylor of the Hanover and Gettysburg recruiting office announced today. Barrett will undergo basic training at Fort Knox, Kentucky.

Sergeant Taylor also announced that qualified musicians now have an opportunity to enlist in the Air Force or Army band.

Single men, between the ages of 17 and 35, may audition at Bolling Air Force base, Washington, D. C., for the Air Force band, or at Port George G. Meade, Md., for the Army band. If they pass the audition, they will be given a letter of authorization for enlistment into the bands. By auditioning before enlistment they are assured of assignment to a band following basic training.

Further information on such enlistments is available at the recruiting stations in the Gettysburg and Hanover post offices, Sergeant Taylor said.

Files Papers In Auto Crash Suit

Papers in an action in trespass in which Donald Hershey, Cashtown, is the plaintiff and R. E. Strous is the defendant, were filed today in the prothonotary's office here, by the law firm of Swope, Brown and Swope, the plaintiff's attorneys.

According to the latter, the suit seeks damages resulting from an automobile accident on August 20, 1948, which involved a station wagon and Hershey's automobile, operated by a son of the plaintiff, Jay Hershey, now serving in the army.

Strous, the attorneys said, was at that time manager of the Piney Mountain inn. The station wagon was operated by an employee of the inn.

Dr. and Mrs. J. M. Myers and daughter, Helen Dr. Myers terminated his services as pastor of Grace Lutheran parish, Two Taverns, which includes St. Luke's church, on July 31 after a pastorate of 20 years.

The event was sponsored by the Ladies' Aid society of St. Luke's. A fried chicken picnic dinner was served. The invocation was offered by the Rev. John C. Brumbach. A similar event had been held several weeks ago by the Two Taverns church.

Following the supper a varied program, arranged by Mrs. Arlene Krumrine and Mrs. Roscoe Klinefelter, was presented. North Koreans Massacre 32 American Prisoners; Five Escape, Tell Brutal Story

With U. S. First Cavalry, Korea, Aug. 17 (AP)—Thirty-two American prisoners with hands tied behind their backs were shot dead today by Red Koreans on a hill west of Waegwan just before a U. S. patrol reached the spot.

The Reds tried to kill 37 prisoners in all. But five lived to tell the story. They said the Communists also massacred the wounded as they lay moaning on the ground.

This was in the area that was bombed yesterday by 98 B-29s in the heaviest air raid of the war. Killing of prisoners in this fashion is typical retaliation for such an assault. The execution of the prisoners was on Hill 303, which was captured by the Reds this morning.

Their bodies were found on a ridge recaptured by the Fifth Cavalry this afternoon. The American prisoners were killed only two hours before troopers re-took the ridge.

The Americans seized the ridge at 6:30 p.m. (3:30 a.m. Eastern Standard Time). The hill had been fought over for three days. The 37 Americans were mowed down by bursts of gunfire.

Three North Korean prisoners were taken after a sharp fire fight nearby. One of them was positively identified by an American survivor—Cpl. James Melvin Rudd, of Salsersville, Ky.—as a member of the squad of killers.

This prisoner denied he had taken any part in the action. Regimental officers said he would be sent back with recommendation that he be tried as a war criminal.

With Rudd was another survivor

TOWN TAKES ON SESQUI DRESS; DECORATIONS UP

Decorators were making considerable progress today in preparing the business places in Gettysburg for the Sesqui-centennial celebration.

As flags, red, white and blue bunting and other decorations go up on buildings here, the town is beginning to assume a gala appearance for the observance of its 150th birthday.

The Gettysburg National bank, York street, was one of the first buildings decorated. Bunting was placed Tuesday and Wednesday on the First National bank building, Lincoln Square.

**Decorate Through County**

Other business places which have been decorated or are being garbed for the festive affair include Bender's drug store, Tobey's, Haines, shoe store, Peoples drug store, Weishaar's hardware store, the Shank hardware store, Western Auto Supply and the state employment office building.

Banners similar to the ones placed some time ago in Gettysburg announcing the Sesqui-centennial and its dates have also been strung across the streets and main highways in New Oxford, Biglerville and Littlestown.

These and other Adams county communities also will have their business places decorated for the birthday anniversary. John D. Lippy, Jr., is chairman of the decorating committee of the Sesqui organization.

Worked Here Before

The decorating is being done by the Bangert Flag and Decorating company, of Philadelphia, an established concern in this line of business. Mrs. Eleanor Bankert, widow of a son of the founder of the business, is in personal charge of the Adams county decorating.

The Bangert company decorated here, according to Mr. Lippy, for one of the Blue and Gray reunions. It has provided decorations for Democratic and Republican national conventions in Philadelphia and for a large number of other conventions there and elsewhere.

Bream Talks At Waynesboro Event

"If Russia would train its youth along athletic lines as America does, there would be no need for another war," Henry T. Bream, head football coach at Gettysburg college declared at the Athletics Booster club outing at the Waynesboro Country club Tuesday evening.

Commenting on a recent bit of Communistic propaganda in which America was accused of using football as a means of training its youth to maim and kill, Bream stated that athletics has fitted the nation's manhood to be the best soldiers in the world.

Nearly a hundred high school boys, their dads and members of the Booster club attended the affair. Superintendent of Schools Marsby C. Little introduced the speaker.

SON WOUNDED IN KOREAN WAR

Word was received Monday by Mrs. Bertha Harbaugh, Emmitsburg R. D., that her son, Raymond, was injured in Korea. The letter was written August 9 by another soldier.

Raymond Harbaugh, 20, now in a hospital at Ota, Japan, was unable to write the letter at the time because he did not have the use of his right hand. The brief letter did not state the exact condition the boy was in but it did say that he had been wounded and that his money and clothing had been taken by the Communists.

Pfc. Harbaugh, a member of the 48th Field Artillery, enlisted in the army on July 19, 1948.

Previously he attended Emmitsburg high school for one year and was employed at the Beaudin Shoe company in Emmitsburg for two years.

DEARDORFF REUNION

The Deardorff reunion will be held Saturday, August 19, at the South Mountain Fair grounds, near Arendtsville.

By RELMAN MORIN  
Tokyo, Friday, August, 18 (AP)—Thirty thousand North Koreans opened a massive drive on Taegu on the central Korean warfront Thursday.

The Reds poured through steep mountain passes 15 miles north of the South Korean emergency capital. They were east of the Nakdong river. Only two South Korean divisions stood between them and Taegu. South Koreans controlled the mountain pass roads.

The Communists poured out of the B-29 bomber area west of the river. They jumped off from an area between Waegwan and Kunwi.

Their attack started a few hours after U. S. Marines and the 24th Infantry Division struck a new Allied blow at the 12,000-man Red bridgehead on the east bank of the Nakdong river near Changnyong, 23 miles southwest of Taegu.

"Most Serious Threat"

The Marines had been pulled out of the south coastal area where they had made advances on Chinju. They were ordered back 20-odd miles to the east and then shunted northward for the Changnyong attack.

The U. S. 25th Infantry Division took the Marines' places in the coastal line just west of Masan, southern port which is 27 airline miles east of Pusan.

It was on the north central front, north of Taegu, that the Reds were making their most dangerous threat, however.

The sudden thrust was described by U. S. 8th Army headquarters as the "most serious one to the United Nations in Korea."

It followed a massed bombing attack by 98 B-29s Wednesday which was aimed to slow the Red offensive.

Fierce Marine Action

The Changnyong fighting was fiercest of the war—AP Correspondent Don Whitehead said the marines advanced over savagely contested slope. He said it was the type of fight the marines made in the Pacific in the second World War.

AP Correspondent Jack MacBeth reported from the 24th Infantry positions Thursday night that the army doughboys had reached their objectives. They are on the marines' northern flank.

MacBeth reported the doughboys were digging in for a possible counter-attack from 12,000 river-crossing Reds in the bridgehead during Thursday night.

The marines hit hard and fast at a craggy hill to spearhead an American offensive against the 12-day-old Red bridgehead over the river below Changnyong. The town is 23 miles southwest of Taegu, South Korea's emergency capital.

Bloodiest Battle Yet

As the marines fought in their bloodiest battle of the war, AP Correspondent Stan Swinton, with the 25th Infantry Division left to defend the south coastal area, reported a buildup of the Red forces shattered by U. S. forces before the marines were withdrawn. Swinton said an attack on U. S. defense positions west of Masan, 27 airline miles east of Pusan, the No. 1 U. S. seaport on the southeastern tip of the Korean peninsula, was building up.

The whole Korean warfront was rapidly becoming a battle of position. Troops were shifted on both sides.

The Reds moved the main portion of their 60,000-man force in the Waegwan area about 12 miles to the northeast for a thrust toward Taegu from Changchon.

This new Red threat from Changchon seemed to be the main enemy effort. Steps to stop it and sporadic Communist attacks all along the Nakdong river line occupied Allied commanders.

### BIRTH ANNOUNCEMENTS

## Bream Garage And Moose To Meet In Loop Finals

Glenn L. Bream garage will meet the Moose Monday evening on the Recreation field in a three-game series to determine the championship of the community softball league.

The two teams won their way into the finals of the round-robin series held at the end of the regular loop schedule by both winning second straight victories in preliminary playoffs Wednesday night.

Nine hits, five walks and two errors by the opposition gave the Bream garagemen their 11 to 6 victory over the Elks for their second win in that semi-final.

The Moose took advantage of six hits, four walks and three errors to win over the Elks 4 to 2. By its loss Texas Lunch, which had emerged as the champion in regular schedule competition, was eliminated from the playoffs.

Start At 8  
More than 400 witnessed Wednesday's games under the lights at Recreation field. President Johnny Knox, in announcing the beginning of the finals Monday night, said the players should report at the field at 7:30 o'clock to warm-up and that the game will begin promptly at 8 o'clock.

Clarence Bartholomew made a valiant effort to win for the Texas Lunch despite an injured hand. Still swathed in bandages, he held the Moose to six hits, scored both runs tallied by his team and in the seventh inning blasted out a home run over the head of left fielder Fred Wright.

The Moose actually sewed up the game in the second inning when Sherman and Wright singled, Johnson reached base on an error and then the three came in on another error. Cole walked and came in on Knox's single to give the Moose their final run in the seventh.

Elks Score  
The Elks started off their contest with four runs in the first part of the first inning. McClellan walked, Hamm struck out, Woods singled, B. Sachs reached base on an error, Raffensperger singled, Dillman was put out by the first baseman, Shields singled and Troxell went out on a fielder's choice. By that time four runs were across. Thereafter the going was tougher for the Elks. Their next run came in the fifth with Hamm walking and then scoring on B. Sachs' single. In the seventh Raff singled and then came in.

Four In First  
Glenn L. Bream garage, not to be outdone by the Elks, also poked across four runs in the opening stanza. Hankey flew out, K. Fair singled, Everhart singled, Rohrbaugh walked and Gorman homered.

In the fourth Alternose singled and came in on K. Fair's hit. Three runs were added in the fifth with one out, Gorman and Kitzmiller were walked, Steinberger hit and an error brought in the third run. The sixth was marked by three more runs scored by Everhart, Rohrbaugh and Gorman.

## DETROIT, PHILS WIN IMPORTANT GAMES IN RACE

By JOE REICHLER  
(Associated Press Sports Writer)  
Loquacious Paul (Call Me Dizzy) Trout, the Hoosier nobody wanted in 1949, is keeping the Detroit Tigers on top in the chase for the American league pennant.

Currently the hottest pitcher in the loop, the oldest player on the Detroit Tiger squad is in line for "comeback of the year" honors in the majors.

The 35-year-old righthander from Sandcut, Ind., relegated to the bullpen throughout the '49 season and the early part of the '50 campaign, today boasts a 10-2 won and lost record. A newly developed fork ball has helped him.

Old Diz gained his 10th triumph last night when he pitched and battled the Tigers to a 6-2 victory over the Chicago White Sox. It was his sixth consecutive win and the fifth straight time he went the distance.

It was an important victory for the Tigers since Cleveland and Boston each swept double headers and the New York Yankees defeated Washington.

The Indians received excellent pitching from Jesse Flores and Mike Garcia as they defeated the St. Louis Browns, 2-0 and 2-1. The Red Sox pounded out 11-3 and 12-7 verdicts over the Philadelphia Athletics. The Yankees won, 9-4.

Bickford Loses  
Philadelphia's runaway Phillies widened their National league margin to seven games over Boston, setting back Vern (No-Hit) Bickford and the Braves, 5-1. The New York Giants mauled the Brooklyn Dodgers, 16-7. Pittsburgh handed the St. Louis Cards their fourth straight defeat, 5-3. Chicago's Cubs earned a 12-inning 4-3 win over Cincinnati.

Moore, making his first start for the Indians, distributed only four hits to the Browns in the opener. Garcia gave up five in the nightcap. The double win moved the Tribe into second place, three games behind Detroit.

Phil Rizzuto collected four hits as the Yankees capitalized on five Washington errors for their victory. Tom Ferrick, third New York hurler, was the winner.

Bobby Doerr batted in seven runs.

## Kump Wins Nine For Lebanon Chix

Ronnie Kump, of Cashtown, who last year starred in various Adams county leagues, is doing just as well in the North Atlantic loop.

The county youngster Sunday hurled Lebanon to a 5 to 1 victory over Berwick, allowing five hits, walking two, and striking out three. He tallied one of the three hits scored for Lebanon and as a result of the win brought his pitching record with the Lebanon Chix to nine wins and four losses for the year.

Saturday he played left field for the Chix, and got two hits out of five trips to bat.

five in the first game as the Red Sox made it 18 consecutive Fenway Park victories over the A's who haven't won there since September 12, 1948.

Robin Roberts pitched a three-hitter for the Phillies to register his 16th victory. Richie Ashburn rapped three hits for the Phils. Bickford, who pitched a no-hitter in his last outing, allowed 11 hits.

A nine-run first inning by the Giants finished the Dodgers. Before it was over Hank Thompson had smashed two inside-the-park homers and Don Mueller had hit a grand slammer for the winners. Sal Maglie racked up his sixth straight win.

Ralph Kiner hit his 34th homer of the year with a man on to help Pittsburgh whip the Redbirds. Outfielder Tom Saffell, just recalled from Indianapolis, smacked a home run and two singles for the Pirates.

## CARDINALS WIN MIDGET LEAGUE CHAMPIONSHIP

The Cardinals, behind the seventh-hit pitching of Bobby Kenworthy, made it two straight wins to take the champions of the Recreation Community Midget baseball league Wednesday. In regular season play, the Cardinals ended up in second place behind the league winning Phillies.

Eleven errors hurt the Phillies. There were very few strike-outs and many walks during the contest. The Cardinals won 21 to 10.

Next year a midget league for 8 to 12 years old youngsters will be formed and, according to present plans, a loop for 13 to 15 year olds will also be established next summer at the Recreation field.

## Littlestown Wins Penn-Mar Contest

Littlestown defeated Blue Ridge Summit, 6 to 4, Wednesday evening under the lights of the Littlestown Memorial field in a Penn-Mar league contest.

Thomas Murren saved the day for the victors. The teams had entered the last inning with Littlestown leading 6 to 1. Blue Ridge Summit then began a scoring threat, pushing across three runs and getting two additional men on base, when Murren took the mound.

The Hanover R. 4 pitcher hurled seven balls to strike out two men, retire the side and end the game.

## WHEN WE WERE KIDS

Nostalgic urges never quite die  
out within us. They keep coming to  
us, and this is well, for our entire  
life then is kept sweet by the  
incense of youth. We may never  
again experience the joy and won-  
der of those early days, but memory  
keeps them fresh in our minds, and  
we can dream them over. Like  
lighted candles, in a dark room,  
they put new light to life.I have watched fishermen leave  
for their vacations, loaded with ex-  
pensive fishing material that has  
cost a great deal of money. They  
have read books, gone on long ex-  
cursions, with trained guides, and  
have experimented with endless  
flies, mechanically constructed, yet  
have failed to get the thrill that the  
small boy first gained with his cut  
branch, his tiny hook or even bent  
pin, and his can of bait, whistling  
upon the bank of a small stream!When we were kids we knew a  
world of joy and beauty that com-  
mercial pursuits and later gain have  
never been able to match. But no  
matter how far the years may lead  
us away from the days of youth, we  
can keep grasping for her apron  
strings and still be thrilled anew  
through this memory of ours, and  
an occasional hide-away where  
Nature opens her book with some-  
thing vivid thereon to remind us  
that youth can live again.A little gratuitous effort, a spell  
of glorious idling, if you please, is  
something that even the soul re-  
spects and welcomes. The great  
poet, Whitman, lives today and his  
fame is ever on the increase, yet he  
was somewhat of an idler. A writer  
wrote a book about him, and called  
it "The Magnificent Idler."When we were kids this idling  
among flowers, birds, forests,  
streams, and hills, brought unfor-  
gettable experiences. In our later  
years the memory of them has  
formed little harbors in our con-  
sciousness—little retreats for quiet  
thought and meditation.Tossing back our thoughts to the  
happy days when we were kids  
helps us to understand, and to tol-  
erate in kindly fashion, those who  
are the kiddies today—the makers  
of the nation tomorrow!Tomorrow Mr. Adams will talk on  
the subject: "Equipment."

## Just Folks

## "IF I WERE RICH"

"If I were rich!" Why waste the  
time  
With, if a dollar were the dime  
I would do this? Ere day is  
through  
Instead do what the dime can do."If I were rich!" The phrase is  
vain.  
The needs we'd serve unserved  
remain.  
But there's that lesser need  
nearby  
Which, if we would, we could  
supply."If I were rich" That means that  
we  
With much to spare would  
generous be.  
The widow's mite was truly great  
Because for more she didn't wait.She named no contribution which  
She'd surely make if she were  
rich.  
She proved her love for service  
good  
By gladly doing all she could.

## Banking time

It would be interesting if you could take a  
look at a book showing your time-and-effort  
savings account—made possible by your tele-  
phone. There would be quite a balance in your  
favor! The entries would show all the hours,  
all the effort and all the inconvenience saved  
by your telephone. Other entries would show  
the worries saved you, for the telephone keeps  
you in touch with people you love, guards you  
and your family twenty-four hours a day.  
When you consider all that telephone service  
does, it's easy to see why it is one of the best  
buys you can make!

## Missing something?

For instance, you might miss an important  
call if you wait for the last ring of your  
telephone bell before running to answer it.  
If you answer as soon as you're sure it's your  
ring, you'll avoid losing important calls, and  
your neighbors won't be annoyed by unneces-  
sary ringing.The Chesapeake & Potomac Telephone

## HANDBOOK ON ATOM BOMBING EFFECTS OUT

Washington, Aug. 17 (AP)—Five years after the explosion of the first atomic bomb, the government has come out with some specific instructions on what to do if one hits your city.

They are contained in a big book "The Effects of Atomic Weapons" released last week-end by the Atomic Energy commission.

Here are some tips you might do well to memorize:

The first thing to remember is that if a bomb goes off, there will be a sudden increase in the general illumination. The burst will be about 100 times as bright as the sun.

### Curl Up On Ground

Don't worry about recognizing it. One AEC official, in discussing an atomic explosion, told reporters: "If you are not dead already, you will recognize it when it has gone off."

But don't follow your natural instincts to look toward the source of the light. Go into action right away, as follows:

If you're caught out in the open, with no shelter of any kind within a step or two, drop instantly to the ground, and curl up so as to shade your bare arms, hands, neck and

face. And hold that position for at least ten seconds.

This will not protect you from atomic "rays"—if they reach your area—but it may save you from a disabling burn from the bomb's tremendous heat, which radiates out over a considerable area.

If you are within a step or two of a building corner, a doorway, a tree—or even a trench-like hole in the ground—leap there and take shelter, with your back to the light. And assume that curled-up position. (AEC officials said that a soldier in a foxhole 1,500 yards from a bomb burst would be well protected from blast, heat and radiation effects of an atomic explosion.)

### Indoor Rules

After ten seconds you can stand up, because the immediate peril from heat and atomic rays will have passed in that time.

But keep your body pressed tightly against the side of a building to avoid broken glass or falling debris, which can result from the explosion's blast effects.

If you are inside a house or other building when the bomb goes off, do this:

Drop to the floor, with your back to the window. Crawl behind or beneath a table, desk, counter, or other shelter. The closer you are to the interior partitions of the building, the better off you are. They are relatively effective in resisting the blast effects.

There are about 40 species of birds of paradise.

## Stickup Man Gets Wallet But No Money

Philadelphia, Aug. 17 (AP)—The cab driver did everything the hold-up man told him to do. And the robber came off second best financially.

Here's how: A man entered Frank Donatucci's cab last night and told the driver to take him to 10th and Brown streets. Before they reached that spot, the man produced a pistol and told Donatucci, "This is a hold-up."

At 10th and Brown, he ordered the driver to hand over his wallet. Donatucci did so. The robber told Donatucci to get back in his cab and drive away. Again the driver complied.

At police headquarters, Donatucci

reported the wallet contained his driver's license and personal papers. All his money was in his pockets.

## Fighter Wing On Aerial Maneuvers

Dover, Del., Aug. 17 (AP)—Air and ground personnel carried out a series of aerial maneuvers yesterday at the summer encampment of the 53d Fighter Wing, Air National Guard.

Commanded by Brig. Gen. Lorin C. Faurot, the assignments were made by wing operations officer, Maj. William Bennett, of New Cumberland, Pa.

The 11th Bomber Group, of Philadelphia, and 112th Fighter Group, of Pittsburgh and Reading, were joined by units from Delaware, Maryland, Virginia and the District

of Columbia in the maneuvers.

Communications were handled by the 103rd Communications Squadron, of New Cumberland, commanded by Capt. David S. Keefer, and the 603d Signal Light Com-

struction Company, of Philadelphia, commanded by Lieut. Peter C. Cooper, which have established extensive telephone, teletype and radio lines at the Dover air base.

During the first six months of 1949, police recovered 93 per cent of the motor vehicles stolen in the United States, says the Encyclopedia Americana.

# NEW VETERANS WILL RECEIVE LESS BENEFITS

BY JAMES MARLOW  
Washington, Aug. 17 (AP)—For men who volunteer or are drafted into the armed forces now, there are a number of veterans' benefits but not all the benefits which World War II veterans got.  
For example: No one who joined the army, navy or air force after July 25, 1948—even those now fighting in Korea—can get these benefits which World War II veterans got:  
1. Loans on a home, business or farm guaranteed by the Veterans' Administration.  
2. Schooling at government expense, and, 3. unemployment pay which ran \$20 a week for a maximum of 52 weeks for unemployed veterans of the last war.  
Still, men in the fighting in Korea, when it's over, will have been truly veterans exposed to as much death and danger as those who served at home or abroad during World War II.  
Congress will have to decide whether to restore World War II benefits for the veterans of Korea, or those who go into the armed

forces now but may serve at home.  
**What They Get**  
Under the present system, these are the veterans' benefits for a man who entered the armed forces since July 25, 1948.  
1. Government insurance, called national service life insurance. He can get up to \$10,000 worth. He buys it at so much a thousand, depending on his age. It's term insurance. For example: a man of 21 pays 65 cents a month for each \$1,000 of insurance up to the \$10,000 limit.  
If he dies in service, the insurance goes to his survivors. If he leaves the service, he can continue the policy at the same rate or convert it to a permanent policy.  
2. Disability pay. He gets compensation from the government if he's disabled by sickness, injury or wounds, but since this is considered peacetime, the amount of compensation would differ according to the place and circumstances of his sickness, injury or wounds.  
For example: If he were in an area of hostilities—meaning Korea right now—and was totally disabled, he'd receive \$150 a month, or the full wartime compensation.  
If he were totally disabled by an army truck accident in this country, his total disability pay would be only 80 per cent of what it would have been if the accident had happened in Korea.  
There's extra disability allowance

for blindness, or loss of a limb.  
3. Job rights. When a man drafted now gets out of service, his employer must give him back his job.  
4. Hospitalization. A man who volunteers or is drafted now can when he gets out, receive hospital treatment at veterans' hospitals.  
If he needs emergency treatment—whether his trouble is connected with his military service or non-connected—he can get it at once.  
And—there is always a bed for a man with a service-connected disability, whether emergency or not.  
A veteran with a non-service-connected disability, who is not an emergency case, can get a bed when there's one available for him. But this is true only for war veterans. Which means:  
Some of the men fighting in Korea went into the army since July

25, 1948. They are in hostilities. When they become veterans and have a non-service-connected disability, they can get a hospital bed. But—  
Suppose you're drafted now and serve 21 months in this country, are discharged, and later develop a non-service-connected disability. You can't get a VA hospital bed. Why? You're not a war veteran, or a veteran of hostilities.

**Griffith Praises Defense Officials**  
Alexandria, Va., Aug. 17 (AP)—Paul H. Griffith, assistant secretary of defense, said today that the dollar costs of the Korean fighting would be greater than they are "if we had not, in months past, learned to get the greatest amount of defense for

ever dollar spent.  
Griffith described Secretary of Defense Johnson, who has been criticized by some for his previous economies, as "the most sincere, honest and capable executive that can be found any place in the world."  
A strong example of the criticism of Johnson was supplied last night by Clyde A. Lewis, commander of

the Veterans of Foreign Wars. Lewis told a Detroit audience that Johnson "gambled with the security of the United States in the name of vote-getting 'economy' and lost."  
However, Griffith said in a speech prepared for the annual convention of the Virginia department of the American Legion:  
"It is safe to say that few Amer-

icans, if any, doubt the necessity of military expansion at an accelerated rate, regardless of cost."  
The capital of the Dominican republic, now known as Ciudad Trujillo, was founded in 1496 by Bartholomew Columbus, brother of the famed Christopher.

## MANY CLUES IN SHACK MYSTERY

Penns Grove, N. J., Aug. 17 (AP)—A blood-stained rowboat, a shot-gun, half of a human body, a skull, and the smoking ruins of a shack are clues in a mystery here.

The shack belonged to Raymond Livesay, 35, a Penns Grove contractor. Last Tuesday, police were told, Livesay took Michael Derr, 38, a carpenter in his employ, to the cabin for a fishing party. Neither man has been seen since, said Police Chief Thomas Durr of Upper Penns Neck.

Yesterday Joseph Hand, another employee of Livesay's, went to the cabin for keys to open the office. He told police he found the cabin burned.

Inside it were the lower half of a man's body, a set of keys, and a gold watch bearing the initials M. K.

Nearby, in Salem Creek, was a bloody rowboat. In the rowboat were part of a human skull and a 12-gauge shotgun, which police said had apparently been fired recently.

State and county authorities are investigating. It was believed that Derr came here recently from Virginia, but his address was not learned.

It was no gag. She made two cents on the transaction.

## Don't Pay Over 25c For Medicine Friday and Saturday

Liberal Introductory Offer of a Full 4-oz. Bottle Of The Amazing New Certa-Vin

Good News for Folks Who Suffer from Stomach Gas, Acid Indigestion and Worn-Out Feeling. CERTA-VIN Expels Gas, Aids Digestion and Builds Richer, Stronger Blood! Weak, Miserable People Soon Feel Different All Over! Read the Offer Below:

Every person who needs it can have a liberal Introductory Bottle of the Amazing New Medicine, Certa-Vin, to try for 25 CENTS. Simply read the offer below. Do this in your own interest.

CERTA-VIN was placed on the American market only a few short months ago. Soon, it was selling at the rate of over five thousand bottles a day. This great sale clearly indicates the merit of this medicine. A careful survey showed that Certa-Vin helped 80 per cent of those who had taken it. THEREFORE, we offer a liberal introductory bottle for 25 cents, because we believe people who once try Certa-Vin will continue to use it. The price of the regular bottle is \$1.65. But this introductory bottle will be sold to you, for two days only, for 25 cents.

#### WHAT IT IS

CERTA-VIN is a New Combination of Medicines. It contains 12 different ingredients, including a careful selection of Nature's Roots and Herbs mixed with Vitamin B-1 and Iron, all of which are combined into this single medicine. It contains No Alcohol — No Habit-Forming Drugs, whatever!

#### HOW IT HELPS

Certa-Vin is such a widespread medicine that it acts in 3 different ways, all at once, to relieve misery and make one feel better. Those 3 ways are:

1. CERTA-VIN contains carminative herbs which help expel gas from stomach and intestine, thus helping give Blessed Relief from the miseries of gas bloating, such as sharp gas pains, gassy "catches" from frequent bloating, gas misery and abdominal discomfort due to gas pressure.

2. CERTA-VIN aids digestion and contains herbs which stimulate appetite and promote the flow of digestive juices. It enables you to digest your food faster and better, with less gas and bloating, and to enjoy your food and get more good out of your meals, thus adding to your strength and wellbeing.

W. T. Maynard, owner of Certa-Vin, who chooses to offer this medicine purely on a trial basis at a fraction of its actual cost!

**RICHER BLOOD!**  
3. CERTA-VIN acts as a hematonic, that is, it helps to lessen BLOOD POVERTY caused by simple anemia! If your blood is PALE, WEAK and THIN (due to simple anemia), containing too few Blood Cells and too little Red Coloring Matter (percentage of hemoglobin,) here is a suggestion. Certa-Vin contains elements that help to regenerate RED BLOOD CELLS and to produce RED COLORING MATTER in your blood. Certa-Vin helps to increase both the NUMBER and the COLOR of your Red Blood Cells. It assists you to RICHER, STRONGER BLOOD.

#### TRY IT FOR 25c

Now, whether Certa-Vin will help you as it has thousands of others — whether it will produce results for you in a few days or a week — remains to be seen. But in light of what it has done for others, it is surely a mistake not to try it for 25 CENTS, a fraction of its actual value. This offer is good Friday and Saturday of this week ONLY.

To get your introductory bottle of Certa-Vin call at the Peoples drug store. Coupon NOT absolutely necessary, but clip it out and take it with you to indicate to Druggist exactly what you want. Out-of-town residents may send 25c in coin to Certa-Vin, 923 Walnut Street, Cincinnati 2, Ohio and medicine will be shipped Prepaid.

## BOMBING COUP IN KOREA MAY BE DECISIVE

BY DEWITT MACKENZIE  
(AP Foreign Affairs Analyst)

The unprecedented B-29 attack upon North Korean troops concentrated in a 26-square-mile area northwest of Waegwan doubtless will set military experts to figuring feverishly.

It was the first time B-29s ever had given close-up mass support to ground forces, and the first time they ever had been assigned to blanket a great area in a direct blow at hostile troops.

Inevitably the experts will aim to figure how the results of such bombing would compare with the use of an atomic bomb on the same area. They may find that an atom bomb, employed in such manner as to produce its greatest efficiency, would have done more damage.

### Expect Howls From Reds

However, they also may find that regular quarter-ton bombs, if well placed, will do more damage than the A-bomb unless the latter is exploded so as to produce its maximum efficiency.

In any event, this mass bombing may be expected to produce a howl from the Communist camp. Moscow already had been branding Uncle Sam as a barbarian because of bombing in Korea.

Soviet delegate Jacob Malik, who now is presiding over the U. N. Security Council, has a resolution before that body charging the United States with the "inhuman, barbarous bombing of the peaceful population of peaceful towns and populated areas." Russia calls on America to stop this alleged bombing immediately.

### Malik Will Use It

It will be strange if Malik doesn't use the latest bombing as the text for another hot protest.

I never hear such absurd allegations without thinking of a statement made to me in England during the late World War by Lt. Col. Paul Tibbets, of Miami, Fla., one of America's air heroes and wearer of the purple heart. We got onto the subject of bombing populated areas, and Tibbets said before his first raid he was sick with thoughts of the civilians who might suffer from his bombs.

"That feeling probably dates back to my training days," he said. "We had it hammered into us constantly that in practice we must watch for the folks below us. . . . When I look at a 2,000-pound bomb in the bay of my ship I know a lot of people may get hurt. My anxiety is for the women and kids. You see, I have a three-year-old boy of my own at home."

What Col. Tibbets said goes for American airmen as a whole. That's the answer to allegations that U. S. airmen engage in "inhuman, barbarous bombing."

Chester Loszewski, who has spent several weeks at Misericordia hospital, Philadelphia, convalescing after a serious operation, has recovered sufficiently that he has been allowed to leave the hospital and complete his recuperation at home. # Ghost Of Headless Frenchman Of Kettle Creek Still Rooms

Lock Haven, Pa., Aug. 17 (AP)—So you don't believe in ghosts? Well, maybe that's because you don't live near Road Hollow. For the headless Frenchman of Kettle creek still rooms the wilds in these parts.

At least, that's what the folks of Clinton county say. And a reporter and photographer for the Lock Haven Express, who checked the authenticity of the legend, aren't saying yes or no.

Legend has it that the ghost belongs to a French explorer who robbed a secret cave of Indian silver some centuries ago. The Indians, it seemed, avenged their loss by beheading the Frenchman when he returned for more silver.

See Form, Hear Moan  
Reporter Pete Stevenson and Photographer Jim Patterson, acting on instructions from Hy Crammer, postmaster of the hamlet of Hammersley Fork, set out to track down the ghost.

On a chilly, misty night they parked their car near the bridge spanning Kettle creek at Road Hollow. As they sat waiting, the only sound filling the night air was that of the distant pounding of a gas well drill working the night shift.

Suddenly a flickering, wavering form reared up less than 100 feet away. They edged toward the eerie, reddish-white figure for a better look. A sound like that of a low, almost painful, moan could be heard.

Angered By Drilling  
The figure glided away, up the bank and onto Road Hollow. It moved quickly in the faint moon-

light. They ran to keep it in sight. A metal filmholder fell from Patterson's pocket. They stooped to pick it up. When they looked up again, the headless Frenchman was gone. Some say the Frenchman still roams the wilds of Clinton county looking for his head. Others say he's angry because "wildcatters" are drilling for gas.

As one valley resident put it: "It's his life blood, that natural gas, and these drillers are eating it all up. If they keep piping the gas out, the headless Frenchman will die."

Some Scoff  
Some scientifically-inclined folk scoff at the legend. They say the moan is nothing but methane gas seeping from crevices. A forest ranger offered the suggestion that the eerie, ghostlike figure is caused by glowing phosphorous clinging to moss and rotten logs in the damp woods.

And then there's the story of the silver Woodsman Harry Walters showed Stevenson and Patterson a piece of silver the size of a golf ball. He said he found it in the woods. And there's a lot more of the Indian silver around, he said.

Disbelievers have an answer for that, too. They suggest it's some manner of ore which has become silverized over the years.

Maybe so. And then again, maybe not.

Women now have borrowed the shiny hatter's plush used in men's top hats, for some of fall's most popular millinery.

## Urges Purification Of School Wells

"The mobilization order has been issued in all districts for the beginning of the fall term. It means that all families are looking forward and preparing their children for school," said William I. Shields, state sanitary officer.

"School boards are busy preparing for the opening day, which necessitates a thorough cleaning of the school plant, clearing grounds of poisonous weeds, and repairing the buildings where needed. School buses are being cleaned and disinfected. All wells and springs that have been dormant during the summer months should have germicidal treatment.

"To treat the wells, take a 12-ounce can of chloride of lime (be

sure the bucket is not corroded) and mix thoroughly with enough water to form a paste. Stir this paste into one gallon of water, mixing thoroughly. The mixing should be done in the open air. Pour this mixture into the well or spring and allow to remain for 36 hours. Then pump off a generous amount of water each day. When the odor of chlorine has disappeared the water is safe to use if all other causes of contamination have been removed."

# TELLS HOW REDS IN KOREA KEEP STRIKING POWER

BY ELTON C. FAY  
(AP Military Affairs Reporter)

Washington, Aug. 17 (AP)—How can the Korean Red army have casualties estimated at more than 40,000—yet continue to strike hard and have far more men than when it started?

There are several explanations, some obvious and some assumptions, among them these:

1. Conscription of men in both North and South Korea, a practice used widely in Asiatic wars, has replaced battlefield losses and swelled the over-all strength.

2. Manpower may be filtering down from Manchuria and from Communist China, fed into Red army units in small but steady numbers to augment the North Korean force.

3. The estimates of Red casualties may be too high. Perhaps the original estimate of 90,000 to 100,000 men in the Red army at the start of the war was too low. There may have been many troops in reserve that are just now being sent into action.

Last week the Far East command sent the Pentagon an estimate of about 37,500 total casualties for the Communist forces. Communiques since then contain figures totaling about 3,000 more.

For 50 days of fighting by an original force of 100,000 men that would be a high rate. But it is not at all impossible that the Communists would have been able to replace them from the manpower pool in and outside of Korea, using the conscription method and providing little or no training of such "recruits."

Difficulties Involved

Although the casualty estimate comes from headquarters and field commands, it is, at best, only an estimate. An accurate count of enemy dead and wounded is difficult even when the forces making the estimate are moving forward in former enemy territory where noses can be counted. It is even more difficult when the force is in retreat or standing at a fixed position, as is the case of the United States and South Korean defenders.

It is much easier to estimate the strength of the enemy's troops and units in action. They can be seen across the firing line. Captured prisoners give information on identity of units. Estimates of the present strength of the Red army, therefore, is interesting.

Estimates May Be High

3. The estimates of Red casualties may be too high. Perhaps the original estimate of 90,000 to 100,000 men in the Red army at the start of the war was too low. There may have been many troops in reserve that are just now being sent into action.

Many NEVER SUSPECT CAUSE OF BACKACHES

As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slows down kidney function. This may lead many folks to complain of nagging backache, loss of pep and energy, headaches and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to cold, dampness or dietary indiscretions.

If your discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 50 years. While these symptoms may often otherwise occur, it's amazing how many times Doan's give happy relief—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

## Expect 5 Million To Register In Pa.

Harrisburg, Aug. 17 (AP)—Republicans and Democrats alike looked today for a registration of 5,000,000 voters for the Nov. 7 general election.

There's exactly a month left—the deadline is Sept. 16—for citizens to make themselves eligible to cast a ballot.

Republican State committee spokesman said GOP leaders have been conducting an intensified drive on the local level to register voters. "We're very much satisfied with what has been done so far," said the source. "For the remaining month, we plan to concentrate in the populated counties like Allegheny and Philadelphia."

In contrast, Maurice Splain, Democratic State committee, said his aides were pushing most of their efforts in rural counties. "Our registration campaign is going right down to the precinct level, especially in rural counties," he said.

Others give information on identity of units. Estimates of the present strength of the Red army, therefore, is interesting.

Democrats leveled fresh attacks

## SWAP BLAME IN KOREAN WAR

Washington, Aug. 17 (AP)—A slam-bang battle over foreign policy shaped up today in the congressional campaign with Democrats and Republicans blaming each other for the Korean war.

Senator Wherry of Nebraska, the GOP floor leader, took the firing line to accuse Democrats of trying to "whitewash the Truman administration's blunders that paved the way for war in South Korea."

Senator McMahon, Democratic Senator running for re-election in Connecticut, charged Wherry and a majority of the Senate Republicans with having "fought almost every administration effort to keep Europe out of the hands of the Communists."

After a shouting word battle over the issue in the Senate on Monday, both sides agreed today that the people are going to hear a lot about foreign policies and the men who make them before the November voting.

## "Baby" Raffle Brings Storms Of Protest

Dallastown, Pa., Aug. 17 (AP)—A real live baby "is to be raffled off at the Dallastown fair this evening, but many in this southern Pennsylvania region are taking a dim view of the proceedings.

Scores of persons bombarded police, welfare agencies and newspaper offices with protests after fair officials announced the raffle. An 18-month-old baby was put on display at the fair grounds.

The fair programs cautioned that the "winner must prove that he or she is physically, financially and mentally able to provide for and care for the baby."

Voicing the views of many of his party colleagues, McMahon said the Republican were "masters of hindsight who seek to cut themselves in on the victories on our foreign policy and to divorce themselves from our defeats."

## SAY W. EUROPE NEEDS TROOPS

Paris, Aug. 17 (AP)—American officials in France are pressing Washington for a solid promise of aid to Europe in the form of U. S. troops to build up badly sagging West European spirits.

Their proposals are double-barreled—One—the United States should deliver at once, or promise to deliver quickly, at least five more divisions on European soil.

The same officials believe Britain also should agree, now, to send five more of its own divisions to Germany or northern France.

The crisis in Korea has brought the American position in France to give the baby a real home."

But as the protests mounted today, a fair spokesman let the cat out of the bag. He suggested the baby to be raffled off might be a kitten.

a low point. The first blush of gratification at American intervention in Korea has been succeeded by a wave of dismay at U. S. reverses.

The French long have expected the strength of American arms—especially the atom bomb—to give them time to get well from the last war, and to reform.

Americans newly-arrived on this side of the Atlantic report that the defeats in Korea have hardened American determination to re-arm and, if necessary, to be ready for a showdown with Russia.

# ORGANIZING PA. STATE GUARD

Indianapolis, Pa., Aug. 17 (AP)—Organization of the top-level staff of the Pennsylvania State Guard has been completed and the way cleared for recruiting to fill the ranks.

The staff of the home-front militia is organized on a division level, Maj. Gen. Frank A. Weber, adjutant general and State Guard commander, said yesterday.

He said the State Guard will start a recruiting drive for 10,000 men after the National Guard 23rd Division goes to Camp Atterbury, Ind., September 5. It is the 23rd Division and other National Guard units called to active federal service that the State Guard will replace.

Weber announced also that he will start interviewing this week prospective commanders of the three State Guard regiments to be organized in Philadelphia, Harrisburg and Pittsburgh. Selection of battalion commanders will be handled through regimental commanders.

The new State Guard's duties will include guarding the civilian populace against air, gas attack and invasion, assisting local relief disaster organizations, policing in time of insurrection or riot, and protecting communication and transportation facilities.

State College, Pa., Aug. 17 (AP)—Membership in the 4-H clubs of Pennsylvania should be doubled in the next several years, Dr. Milton E. Eisenhower, president of the Pennsylvania State college, said here Wednesday.

In an address before 1200 participants in the annual 4-H club week on the Penn State campus, Dr. Eisenhower pointed out that 173,000 rural youth are eligible for membership. Nearly 20,000 belong now.

"The benefits of the program are so tremendous and so significant in our free society," he said, "that we should all join in doing whatever must be done to double the membership."

"This will require more voluntary leaders and more professional workers," he said.

# COMPROMISE IS OFFERED BY GOP IN ANTI-RED BILL

By MARVIN L. ARROWSMITH  
Washington, Aug. 17 (AP)—Senate Republican sponsors of an anti-communist bill offered today to abandon their efforts to tie it to a front mobilization measure in exchange for a Democratic pledge.

The compromise proposed by Senators Mundt (R-S.D.) and Ferguson (R-Mich.) calls for a flat promise by the Democratic leaders to bring up the curb-the-Communist bill later for separate action.

"Those are the only terms on which we will withdraw the bill as a rider amendment to the economic controls bill," Ferguson told reporters.

Senator Maybank (D-S.C.), floor manager of the controls measure, said the Mundt-Ferguson proposal would have to wait until the return to Washington of Senator Lucas (D-Ill.) the majority leader, Lucas, who in Illinois, is expected later this week.

Senate Democrats have arranged a conference for next Monday to discuss the tangled situation. The party's leaders, and Lucas particularly, have shown little sympathy for the Mundt-Ferguson version of internal security legislation.

Foes of the bill have argued that it would drive the Communists underground and make the problem more difficult to handle.

**Would Register Reds**  
Maybank said that in his opinion the Mundt-Ferguson bill "doesn't stand a chance" of being adopted as a rider. However, he predicted approval of the bill, or similar legislation, if it comes up separately. On the other hand, both Mundt and Ferguson said they are optimistic about the chances of nailing their program into the economic controls bill.

Their measure would require registration of Communists and Communist-front organizations, and would outlaw conspiracies aimed at overthrow of the government.

The home front mobilization bill scheduled for a Senate vote Monday would give President Truman an almost free hand to invoke wage-price-ratting controls whenever he saw fit. It also would authorize credit curbs, allocations of scarce industrial materials, and other production controls.

## SHOT IN NECK

Phoenixville, Pa., Aug. 17 (AP)—Robert E. High, 24, of Parkersburg, was accidentally shot in the neck with a .22-caliber bullet on Monday while hunting groundhogs near Kimberton, three miles west of here. State Police Officer John J. Coll said the bullet was fired by Paul Wellar, 20, of Royersford, who was hunting with Charles Buckwater, 44, of Spring City. Coll said Wellar told him he thought he was shooting at a woodchuck in a thicket.

## KILLED ON PIKE

Lancaster, Pa., Aug. 17 (AP)—A West Reading man was hit by an 18-ton scoop while at work on the Pennsylvania turnpike extension Tuesday and died of his injuries. The victim was Aaron H. The frozen body of Steven Rice Wasserman (above), 17, was found August 13, in a snowy crevice at the base of a 3,000-foot granite cliff near the top of Mt. Whitney in California. He and tobacco heir Christopher Smith Reynolds set out more than a week ago on an attempt to scale the forbidding east face of the nation's highest peak.

# HEAVIER DRAFT CALLS EXPECTED

Washington, Aug. 17 (AP)—In all probability the draft is going to take far more men this fiscal year than the 185,000 so far authorized. That's the estimate of Maj. Gen. Lewis B. Hershey, selective service director. He told a reporter the 185,000 total was based on an estimate of needs made in July but now outdated by the world situation.

General Hershey said the international situation is so unsettled nobody can give an accurate estimate of just how many men may have to be called in the next few months. But he remarked that Congress now has removed limits on the size of the Armed Services.

The draft director said calls have gone out for 100,000 men—50,000 in September and 50,000 in October.

Testimony given Aug. 1 and released yesterday by the House Appropriations committee disclosed that Hershey had been authorized to draft 185,000 men in the year ending next June 30.

After the September and October calls for 100,000 men were filed this would have left only 85,000 to

## Number Of Justices Would Be Reduced

Harrisburg, Aug. 17 (AP)—A drastic reduction has been proposed in the number of aldermen and justices of the peace in Pennsylvania.

The proposal was among a series of court reforms advanced by Drs. H. P. Alderfer and M. Nelson McGary, political scientists at the Pennsylvania State college.

The two also recommended abolition of the fee method of payment of justices of the peace and aldermen and suggested instead that they be paid by an annual salary.

The proposals were advanced in an article written jointly by Alderfer and McGary on Pennsylvania government. The article was sponsored by the Penn State Institute of local government.

The fee method of payment of minor court officials was termed by Alderfer and McGary as a "fundamental weakness" of our system of justices of the peace and aldermen.

## Couple Killed By Train On Crossing

Spring Lake, N. J., Aug. 17 (AP)—A Jersey Central railroad train smashed into an auto at a grade crossing here yesterday and killed both occupants.

The victims were R. Russell James, Abington, Pa., and Miss Mildred J. Sinkins, of Philadelphia.

Police said the auto was dragged nearly 700 feet across a trestle over Wreck pond, and that the woman's body was thrown out onto the trestle.

The train was operating over tracks of the New York and Long Branch railroad.
